<i>Field Reference</i>	<i>Field Description</i>	<i>ANSI Description</i>	<i>Location In Misys Tiger</i>
EA1-02	Facility/Laboratory Type	Entity Identifier Code	This field is automatically filled by the application. You will receive this edit if the Place of Service submitted for this location is not HIPAA approved. Review the Place of Service value being submitted for the location of this charge. Access Workbooks, Charges, enter the ticket number. Note the location entered in the Location field. Access Workbooks, File Maintenance, Insurance Company, ID Control Tab, Code Slots grid to determine the pointer for the Place of Service. Access Workbooks, File Maintenance, Location, Location Tab, Place of Service Codes grid. Note the value in the slot referenced by the Insurance Company. If this is an office or home location, the HIPAA approved codes are 11 (office) and 12 (home). If the current location for this charge is submitting another value (3 or 4), verify with the carrier that this value is still required for current claims and ask when the carrier will migrate to and accept claims with the HIPAA approved place of service values for Office & Home. If the carrier is ready to accept the HIPAA approved values, update the Place of Service pointer in the Insurance Company File to submit the correct POS value. Otherwise, do not update at this time as it may cause current claim rejections.

<i>Field Reference</i>	<i>Field Description</i>	<i>ANSI Description</i>	<i>Location In Misys Tiger</i>
FA0-09	HCPCS Procedure Code	Procedure Code	Review the procedure associated with the services lines on this charge. The value being submitted is not approved for HIPAA claim submission. Access Workbooks, File Maintenance, Insurance Company, ID Control Tab, Code Slots grid to determine the pointer for the Procedure. Access Workbooks, File Maintenance, Procedure, Slots Tab, Procedure Codes grid. Note the value in the slot referenced by the Insurance Company.
<i>Field Reference</i>	<i>Field Description</i>	<i>ANSI Description</i>	<i>Location In Misys Tiger</i>
FA0-10	HCPCS Modifier 1	Procedure Modifier	Review the modifier associated with the services lines on this charge. The value being submitted is not approved for HIPAA claim submission. Access Workbooks, File Maintenance, Insurance Company, ID Control Tab, Code Slots grid to determine the pointer for the Modifier. Access Workbooks, File Maintenance, Procedure Modifier, Modifier Code grid. Note the value in the slot referenced by the Insurance Company.

<i>Field Reference</i>	<i>Field Description</i>	<i>ANSI Description</i>	<i>Location In Misys Tiger</i>
FA0-11	HCPCS Modifier 2	Procedure Modifier	Review the modifier associated with the services lines on this charge. The value being submitted is not approved for HIPAA claim submission. Access Workbooks, File Maintenance, Insurance Company, ID Control Tab, Code Slots grid to determine the pointer for the Modifier. Access Workbooks, File Maintenance, Procedure Modifier, Modifier Code grid. Note the value in the slot referenced by the Insurance Company.

<i>Field Reference</i>	<i>Field Description</i>	<i>ANSI Description</i>	<i>Location In Misys Tiger</i>
FA0-12	HCPCS Modifier 3	Procedure Modifier	Review the modifier associated with the services lines on this charge. The value being submitted is not approved for HIPAA claim submission. Access Workbooks, File Maintenance, Insurance Company, ID Control Tab, Code Slots grid to determine the pointer for the Modifier. Access Workbooks, File Maintenance, Procedure Modifier, Modifier Code grid. Note the value in the slot referenced by the Insurance Company.

<i>Field Reference</i>	<i>Field Description</i>	<i>ANSI Description</i>	<i>Location In Misys Tiger</i>
FA0-33	HCPCS Modifier 4	Procedure Modifier	Review the modifier associated with the services lines on this charge. The value being submitted is not approved for HIPAA claim submission. Access Workbooks, File Maintenance, Insurance Company, ID Control Tab, Code Slots grid to determine the pointer for the Modifier. Access Workbooks, File Maintenance, Procedure Modifier, Modifier Code grid. Note the value in the slot referenced by the Insurance Company.

<i>Field Reference</i>	<i>Field Description</i>	<i>ANSI Description</i>	<i>Location In Misys Tiger</i>
FA0-13	Line Charges	Line Item Charge Amount	Review the charge amounts associated with the service lines on this charge.

<i>Field Reference</i>	<i>Field Description</i>	<i>ANSI Description</i>	<i>Location In Misys Tiger</i>
FA0-18	Units of Service □ Anesthesia/Oxygen Minutes	Service Unit Code	Review the units associated with the procedures on this Charge. Access Workbooks, Charges, Detail tab. Verify that the units entered on each line item are greater than 0. Also verify that the procedure do use a Units Override greater than 0. Access Workbooks, File Maintenance, Procedures, Insurance Controls tab, Units Override. If using units override, verify that the units entered are greater than 0.

<i>Field Reference</i>	<i>Field Description</i>	<i>ANSI Description</i>	<i>Location In Misys Tiger</i>
FA0-07	Place of Service	Place of Service Code	Review the POS associated with the location to determine if it is a valid HIPAA response. Determine the POS pointer in the insurance company file. Access Workbooks, File Maintenance, Insurance Company, ID Control Tab, Code Slot grid. Note the value for the POS pointer. Access Workbooks, File Maintenance, Location, Location Tab, Place of Service Codes grid. Note the value in the corresponding POS slot as determined by the Insurance Company. If the current POS is not an acceptable HIPAA value, update the Place of Service pointer in the Insurance Company File to submit the correct POS value.

<i>Field Reference</i>	<i>Field Description</i>	<i>ANSI Description</i>	<i>Location In Misys Tiger</i>
FA0-14	Diagnosis Code Pointer 1	Diagnosis Code Pointer	Review the diagnosis associated with the service lines on this charge. There is no diagnosis value being submitted with this service line. Access Workbooks, Charges, enter the ticket number, Detail Tab. Verify that there is a valid diagnosis code entered in each service line. Then access Workbooks, File Maintenance, Insurance Company, ID Control Tab, Code Slots grid. Identify the code slot pointer used by the Diagnosis. Then access Workbooks, File Maintenance, Diagnosis, Code grid. Verify that a code is entered in the Diagnosis code slot specified by the Insurance Company. If using ADX for Additional Diagnosis, the system needs to be set up to recognize multiple pointers per procedure. Access Workbooks, File Maintenance, Insurance Form Formats, Form 499, Use Diagnosis Indicator = ALL. Access Workbooks, File Maintenance, Insurance Company, Print Control Tab, Diagnosis Indicator = Multiple.

<i>Field Reference</i>	<i>Field Description</i>	<i>ANSI Description</i>	<i>Location In Misys Tiger</i>
FA0-15	Diagnosis Code Pointer 2	Diagnosis Code Pointer	Review the diagnosis associated with the service lines on this charge. There is no diagnosis value being submitted with this service line. Access Workbooks, Charges, enter the ticket number, Detail Tab. Verify that there is a valid diagnosis code entered in each service line. Then access Workbooks, File Maintenance, Insurance Company, ID Control Tab, Code Slots grid. Identify the code slot pointer used by the Diagnosis. Then access Workbooks, File Maintenance, Diagnosis, Code grid. Verify that a code is entered in the Diagnosis code slot specified by the Insurance Company. If using ADX for Additional Diagnosis, the system needs to be set up to recognize multiple pointers per procedure. Access Workbooks, File Maintenance, Insurance Form Formats, Form 499, Use Diagnosis Indicator = ALL. Access Workbooks, File Maintenance, Insurance Company, Print Control Tab, Diagnosis Indicator = Multiple.

<i>Field Reference</i>	<i>Field Description</i>	<i>ANSI Description</i>	<i>Location In Misys Tiger</i>
FA0-16	Diagnosis Code Pointer 3	Diagnosis Code Pointer	Review the diagnosis associated with the service lines on this charge. There is no diagnosis value being submitted with this service line. Access Workbooks, Charges, enter the ticket number, Detail Tab. Verify that there is a valid diagnosis code entered in each service line. Then access Workbooks, File Maintenance, Insurance Company, ID Control Tab, Code Slots grid. Identify the code slot pointer used by the Diagnosis. Then access Workbooks, File Maintenance, Diagnosis, Code grid. Verify that a code is entered in the Diagnosis code slot specified by the Insurance Company. If using ADX for Additional Diagnosis, the system needs to be set up to recognize multiple pointers per procedure. Access Workbooks, File Maintenance, Insurance Form Formats, Form 499, Use Diagnosis Indicator = ALL. Access Workbooks, File Maintenance, Insurance Company, Print Control Tab, Diagnosis Indicator = Multiple.

<i>Field Reference</i>	<i>Field Description</i>	<i>ANSI Description</i>	<i>Location In Misys Tiger</i>
FA0-17	Diagnosis Code Pointer 4	Diagnosis Code Pointer	Review the diagnosis associated with the service lines on this charge. There is no diagnosis value being submitted with this service line. Access Workbooks, Charges, enter the ticket number, Detail Tab. Verify that there is a valid diagnosis code entered in each service line. Then access Workbooks, File Maintenance, Insurance Company, ID Control Tab, Code Slots grid. Identify the code slot pointer used by the Diagnosis. Then access Workbooks, File Maintenance, Diagnosis, Code grid. Verify that a code is entered in the Diagnosis code slot specified by the Insurance Company. If using ADX for Additional Diagnosis, the system needs to be set up to recognize multiple pointers per procedure. Access Workbooks, File Maintenance, Insurance Form Formats, Form 499, Use Diagnosis Indicator = ALL. Access Workbooks, File Maintenance, Insurance Company, Print Control Tab, Diagnosis Indicator = Multiple.

<i>Field Reference</i>	<i>Field Description</i>	<i>ANSI Description</i>	<i>Location In Misys Tiger</i>
FA0-20	Emergency Indicator	Emergency Indicator	If the Place of Service entered on the charge is Emergency Room, verify that the EMERG # Charge Variable has a valid response of "Y" or "N". Access Workbooks, Charges, Charge Variable EMERG #.

<i>Field Reference</i>	<i>Field Description</i>	<i>ANSI Description</i>	<i>Location In Misys Tiger</i>
FB0-21	EPSDT Indicator	EPSDT Indicator	Verify the Indicator setting for this procedure. Access Workbooks, Charges, Detail Tab. Note the procedures entered on the charge. Access Workbooks, File Maintenance, Procedure, Insurance Controls Tab, EPSDT/Family Planning Indicator. Responses of "Both" or "EPSDT Only" will create a response for this field. Response of "Family Planning" or "none" will leave this field blank.

<i>Field Reference</i>	<i>Field Description</i>	<i>ANSI Description</i>	<i>Location In Misys Tiger</i>
FB0-22	Family Planning Indicator	Family Planning Indicator	Verify the Indicator setting for this procedure. Access Workbooks, Charges, Detail Tab. Note the procedures entered on the charge. Access Workbooks, File Maintenance, Procedure, Insurance Controls Tab, EPSDT/Family Planning Indicator. Responses of "Both" or "Family Planning" will create a response for this field. Response of "EPSDT Only" or "none" will leave this field blank.
